NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the three and nine months ended March 31, 2015 and 2014 (Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Southern Arc Minerals Inc. ("Southern Arc" or "the Company") was incorporated in British Columbia, Canada on August 19, 2004. The Company is a natural resource company engaged in the acquisition and exploration of resource properties. To date, the Company has not generated revenues from operations and is considered to be in the exploration stage. The Company's head office is located at Suite 3123 - 595 Burrard Street, Vancouver, British Columbia, Canada, V7X 1J1.

The Company is in the process of evaluating its exploration properties and has not yet determined whether the properties contain reserves that are economically recoverable. The recoverability of the amounts shown for exploration properties are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves, and upon future profitable production.

Going concern

These condensed consolidated interim financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), on a going concern basis, which presume the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period.

The Company does not generate sufficient cash flow from operations to adequately fund its future activities and has relied principally upon issuance of securities to fund its exploration, development and administrative expenditures. These conditions raise significant doubt regarding the Company's ability to continue as a going concern.

The Company will require additional capital to fund its future property acquisitions and its exploration and development programs as well as for administrative purposes. There is material uncertainty about whether the Company will be able to obtain additional capital. If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets may be less than amounts reflected in these consolidated financial statements.

These condensed consolidated interim financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue business.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed consolidated interim financial statements should be read in conjunction with the annual consolidated financial statements for the year ended June 30, 2014, which have been prepared in accordance with IFRS as issued by the IASB.

The Company has used the accounting policies and methods of computation consistent with those used in the annual consolidated financial statements for the year ended June 30, 2014.

These condensed consolidated interim financial statements were approved for issuance by the Company's Board of Directors on May 29, 2015.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the three and nine months ended March 31, 2015 and 2014

(Expressed in Canadian dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Principles of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and:

- i) its wholly-owned Canadian subsidiary West Indonesia Mining Holdings Inc.;
- ii) its wholly-owned Singapore subsidiaries: Indotan Lombok Pte. Ltd., East Indonesia Mining Pte. Ltd. and Southern Sunda Mining Pte. Ltd.;
- iii) its wholly-owned Indonesian subsidiary PT. Selatan Arc Minerals;
- iv) its wholly-owned Japanese subsidiary Southern Arc Minerals Japan KK;
- v) its 90%-owned Indonesian subsidiaries: PT. Indotan Lombok Barat Bangkit; and
- vi) its 70%-owned Indonesian subsidiary PT. Selatan Bengkulu Minerals.

Significant intercompany balances and transactions have been eliminated upon consolidation.

New standards, amendments and interpretations implemented

The accounting policies followed by the Company are consistent with those of the previous financial year except for certain new standards, interpretations and amendments to existing standards issued by the IASB or IFRIC that took effect as of January 1, 2014 and were adopted by the Company effective July 1, 2014, following the Company's June 30, 2014 fiscal year-end.

- IAS 32 Financial Instruments: Presentation. The amendments to IAS 32 pertain to the application guidance on the offsetting of financial assets and financial liabilities. The changes focus on four main areas: the meaning of "currently has a legally enforceable right of set-off", the application of simultaneous realization and settlement, the offsetting of collateral amounts, and the unit of account for applying the offsetting requirements. The Company concluded that the adoption of this standard did not have a material impact on its consolidated financial statements.
- IAS 36 Impairment of Assets. The amendments to IAS 36 outline the additional disclosures that will be required
 with regards to the recoverable amount of impaired assets. The Company concluded that the application of this
 IAS did not have any material impact on the disclosures for the current or prior years, but may affect the
 disclosures of future transactions or arrangements.
- International Financial Reporting Interpretations Committee Interpretation (IFRIC) 21 Levies. This interpretation clarifies the accounting treatment for a liability to pay a levy, where a levy is an outflow of economic benefits imposed by governments on entities in accordance with legislation. The Company concluded that the application of this IFRIC did not have a material impact on its consolidated financial statements.

New accounting standards and pronouncements issued

The following is an overview of accounting standard changes that the Company will be required to adopt in future years. The Company does not expect to adopt any of these standards before their effective dates. The Company continues to evaluate the impact of these standards on its consolidated financial statements.

Effective January 1, 2018:

• IFRS 9 - Financial Instruments. This IFRS introduces new requirements for classifying and measuring financial assets and liabilities and carries over from the requirements of IAS 39 - Financial Instruments: Recognition and measurement, derecognition of financial assets and financial liabilities.

3. INVESTMENT IN ASSOCIATES

Eagle Hill Exploration Corporation

On August 14, 2013, the Company invested \$7,324,050 (inclusive of an \$865,000 deposit paid in June 2013) to acquire 4,882,700 units of Eagle Hill Exploration Corporation ("Eagle Hill") by way of private placement at a price of \$1.50 per unit. Each unit comprises one common share of Eagle Hill and one half share purchase warrant, with each whole warrant entitling the Company to acquire a further common share of Eagle Hill at a price of \$2.00 per share for a period of four years. Eagle Hill is a mineral exploration company focused on advancing the Windfall Lake Gold Project located in the Abitibi Gold Belt in Quebec, Canada. Eagle Hill is listed on the TSX Venture Exchange ("EAG").

On April 8, 2014, the Company invested an additional \$526,316 in Eagle Hill by purchasing 375,940 units at \$1.40 per unit as part of Eagle Hill's flow-through unit offering. Each unit consists of one common share of Eagle Hill and one share purchase warrant where each warrant entitles the Company to acquire one share of Eagle Hill at a price of \$2.00 until April 8, 2016.

On May 9, 2014, the Company purchased an additional 1,000,000 units at \$1.00 per unit for an investment of \$1,000,000. Each unit consists of one common share of Eagle Hill and one share purchase warrant where each warrant entitles the Company to acquire one share of Eagle Hill at a price of \$1.60 until May 8, 2016.

On January 21, 2015, Eagle Hill approved a net consolidation of its issued share capital on the basis of one new common share for 20 old common shares. As such, all of the Company's comparative figures on its investment in Eagle Hill's shares and warrants have been restated to reflect the 20:1 net share consolidation.

3. INVESTMENT IN ASSOCIATES (continued)

Eagle Hill Exploration Corporation (continued)

Although Eagle Hill is accounted for as an equity investment by the Company, it is subject to evaluation of significant and prolonged declines in value. The market value of the Company's investment in Eagle Hill at March 31, 2015 was \$2,628,628 (June 30, 2014: \$6,258,639) based on the publicly traded closing share price of Eagle Hill of \$0.42 (June 30, 2014: \$1.00). As such, the Company recorded a write-down of \$3,354,935 during the period ended March 31, 2015 and will carry its investment in Eagle Hill at market value until such time that the market price rises above the Company's approximate current investment cost. At that time, the Company will determine whether a recovery can be related objectively to an event occurring after the impairment was recognized, and only then will the Company record a recovery of the impairment in Eagle Hill in the Statement of Comprehensive Loss.

West Lombok property

The Company currently holds a 90% interest in the West Lombok property located on Lombok Island, Indonesia. During the year ended June 30, 2013, the Company conducted a review of the value of its West Lombok property and determined that its value had been impaired. As a result, the Company wrote down the property value to \$nil for the year ended June 30, 2013 and 2014.

For the three and nine months ended March 31, 2015, the Company wrote down an additional \$105,425 and \$528,749, respectively, of exploration costs relating to the West Lombok property that were incurred during the period (March 31, 2014: \$245,477 and \$1,141,728, respectively).

On December 8, 2014, the Company announced that it has entered into a binding Memorandum of Agreement with PT Genesis Sumber Energi ("PT GSE") to form a joint venture to advance the West Lombok project. Under the terms of the Memorandum of Agreement, PT GSE can earn a 25% interest in the West Lombok project by funding and obtaining Government approval of an environmental impact study and feasibility study for small-scale underground gold mines and processing plants on the property. PT GSE must also obtain Government approval to convert the West Lombok exploration permit into an exploitation permit, thereby securing tenure on the property for a further 20 years with the option to extend.

Taliwang property

On July 15, 2014, the Company amended the sale agreement and closed the sale of its interest in the Taliwang project. Pursuant to the terms of the final agreement, the Company sold its 90% share of the Indonesian company that owns the Taliwang project to the Purchaser. The Purchaser paid US\$1,000,000 and granted a 5% net smelter royalty ("NSR") to Southern Arc. The Purchaser has the option to buy back 3% of the NSR by paying the Company US\$3,000,000. The Purchaser is required to make additional payments to the Company to fulfill the agreed purchase price of US\$1.6 million. The Purchaser will pay the Company 40% of gross revenue generated from the Taliwang project, after payment of the Southern Arc NSR, until the aggregate amount of such payments equals US\$750,000. For the three and

nine months ended March 31, 2015, the Company had no write-down relating to the Taliwang property (March 31, 2014: \$6,751 and \$120,148, respectively).

In early December the Purchaser achieved first gold production at Taliwang. Local miners have been organized into a cooperative to mine and supply ore to the first of potentially several 50 tonne-per-day CIL processing plants. With gold production underway and strong Government and local support for the mining venture, Southern Arc may receive royalties and further payment toward the purchase price in 2015.

East Elang property

In October 2010, the Company entered into an option and joint venture agreement with Vale International S.A. ("Vale"), a wholly-owned subsidiary of Vale S.A., regarding the East Elang property. To exercise its option in the East Elang property, Vale has to fully fund the advancement of East Elang, through to and including the completion of a bankable feasibility study, at no cost to the Company as follows:

- a) Phase 1 Vale will fund US\$1,200,000 of exploration expenditures within one year from the date the Company receives an exploration activities permit from the Ministry of Forestry for the East Elang property. Vale can then elect to proceed to;
- b) Phase 2 minimum program Vale will fund at least US\$2,500,000 of additional exploration expenditures within two years of commencing Phase 2;
- c) Phase 2 full program Vale may proceed to completion of a pre-feasibility study or fund further exploration expenditures of at least US\$10,000,000 within four years of commencing Phase 2;
- d) Upon completing the Phase 2 full program, Vale may elect to solely fund the completion of a bankable feasibility study within seven years of commencing Phase 2.

If Vale completes a bankable feasibility study within the permitted time frame, Vale will be entitled to receive a 75% interest in the Company's wholly-owned Indonesian subsidiary PT. Selatan Arc Minerals ("PT SAM"), which holds the exploration permit for East Elang.

The East Elang property is held by PT SAM. Funds advanced to PT SAM by Vale are recorded as cash and as accounts payable and accrued liabilities in the Company's accounts until such time as the funds are expended on approved exploration activities. As at March 31, 2015, PT SAM held US\$1,666 (June 30, 2014: US\$17,738) of funds advanced by Vale.
